ABOUT

I'm a determined individual with a strong desire to learn and a strong work ethic. Passionate about innovation and problem-solving, I tackle challenges with determination, always eager to expand my knowledge.

I am actively seeking developer roles. Although I may not have prior professional experience, I have dedicated myself to building a portfolio of projects that showcase my skills, creativity, and problem-solving abilities.

EXPERIENCE

2017 - PRESENT SUPERVISOR

NSA SPA

As a Supervisor, I have taken on the responsibility of leading a team of professionals dedicated to facilitating financing between financial institutions and corporate clients. My role includes team management, financial analysis, and the preparation of reports on client companies.

2022 - PRESENT PERSONAL PROJECTS

--

In 2021, I have cultivated a strong passion for computer development, which led me to pursue several master's programs, including the one offered by Start2Impact, an esteemed Italian B-Corp known for its commitment to innovative and sustainable education. Throughout this journey, I invested time and effort in building a portfolio of projects that showcase my skills.
