About Me

Age
25yo

Location
Brescia, Italy

Experience
25+ projects

I began programming in late 2021, starting with **Python** and then expanding my expertise with other languages and libraries like the **MERN stack.**

Currently, I am attending the **Full Stack Development** Master at **Start2Impact**, an Italian B-Corp company that prioritizes innovative models and sustainable education.

I have also a strong interest in **blockchain technology** and its potential. In July 2023, I obtained the **Ethereum Developer Certification** after attending Alchemy University's bootcamp and in september 2023 I completed the Blockchain Development Master at Start2Impact.

ABOUT

I'm a determined individual with a strong desire to learn and a strong work ethic. Passionate about innovation and problem-solving, I tackle challenges with determination, always eager to expand my knowledge.

I am actively seeking developer roles. Although I may not have prior professional experience, I have dedicated myself to building a portfolio of projects that showcase my skills, creativity, and problem-solving abilities.

EXPERIENCE

2017 – PRESENT
NSA SPA

SUPERVISOR
As a Supervisor, I have taken on the responsibility of leading a team of professionals dedicated to facilitating financing between financial institutions and corporate clients. My role includes team management, financial analysis, and the preparation of reports on client companies.

2022 – PRESENT

PERSONAL PROJECTS
In 2021, I have cultivated a strong passion for computer development, which led me to pursue several master's programs, including the one offered by Start2Impact, an esteemed Italian B-Corp known for its commitment to innovative and sustainable education. Throughout this journey, I invested time and effort in building a portfolio of projects that showcase my skills.
